

EAGLE'S STANDARD RADON MITIGATION WARRANTY

Property

Address: _____

The E.P.A. suggests an annual average in air radon level of less than 4 pCi/L in the lowest lived in or to be lived in area of a building. You should continue to look to the E.P.A. and state offices for any changes to the radon guidelines.

Eagle Environmental will reduce the in air radon levels in the area being treated (*excluding any radon contributed to the air through high radon concentrations from any well water*) to less than 4 pCi/L. We will provide you with a test kit from an E.P.A. certified radon testing laboratory which is to be placed by the homeowner or an independent party no sooner than 48 hours after the system has been in operation. The kit is to be placed in accordance with the laboratories instructions and then sent to the laboratory by person(s) administering test. The homeowner and Eagle will receive a copy of the test results. Eagle will modify the system at no cost to the homeowner if the retest results are above 4 pCi/L. Eagle Environmental warrants that the radon level will stay below the E.P.A. guideline of 4 pCi/L as long as the fan we installed is operating properly and as long as no structural changes have been made to the foundation of the building which was mitigated. This warranty is transferable to any new owners of the property.

Eagle recommends that the homeowner do an annual retest with an E.P.A. certified test kit to verify that the system is operating properly and that the radon levels meet their goals. Eagle makes no guarantee or representation as to the health benefits of the reduction of radon levels in their home.

Eagle Environmental warrants that the materials and workmanship supplied by it shall be free from defects for a period of 5 years after completion. Eagle's responsibility under this warranty shall be limited to the replacement of defective materials or the repairing of defective workmanship. **EAGLE MAKES NO EXPRESSED OR IMPLIED WARRANTY OR GUARANTEE AS TO THE MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OTHER THAN AS SET FORTH ABOVE.**
